

# Torque wrench for powder extinguishers

## DYNA 6810 model

The most accurate tightening of  
extinguisher valves

### Description

The click-type torque wrench DYNA 6810 model is a professional wrench for the most accurate tightening of the valves installed on powder fire extinguishers. The unit is equipped with an insert allowing to connect it to the powder extinguisher valves (outlet thread 1/4" BSP).

Moreover, the small head allows torque application even in narrow areas.
