

Damotek has than 30 years experience on the gas industrial field. Damotek (previously Vanzetti Equipment) If you check any of the first line gas producers' sites in all over Europe we are sure you will find minimum 1 Vanzetti machine on site.

Equipment for gas cylinder retesting refurbishment – vice, valving, devalving, test-pump, test-ramp, cylinder drying and cylinder cleaning equipment. Inner and outer cleaning, painting chambers, gas mixture units...

Post filling treatment units for gas cylinders and gas bundles. For example mixers.
 CLEAN Agent (FM200, Novac), refrigerants, halon equipment – filling, emptying, filtering, separation, cleaning...
 Fire Extinguishers (powder, CO2) retesting, refurbishment equipment – filling, emptying, collecting, cleaning machines...
 CO2 transfer and filling units.
 Inert gas filling and connected machines.

Here you can find the summary of the main CO2 filling machinery

Model	CO2 supply from cylinders	CO2 supply from bundles	CO2 supply from cryo. tank	Top filling	Filling cylin. from 1 to 10 Kg	Filling cylin. over 10 Kg	Scale Interface
99/D1							
103/D1							 OPTIONAL
103/FCD222							 STANDARD
FCD222 + 103D							 STANDARD

ALL THE MACHINES LISTED ONLY TRANSFER LIQUID CO2 AND ARE NOT SELF-PRIMING.

Modello	CO2 supply from cylinders	CO2 supply from bundles	CO2 supply from cryo. tank	Top filling	Filling cylin. from 80 g to 5 Kg	Filling cylin. over 10 Kg	Filling Cyl. For SODA
99/D3							
99/D3-SODA					ONLY SODA CYLINDERS		

ALL THE MACHINES LISTED ONLY TRANSFER LIQUID CO2 AND ARE NOT SELF-PRIMING.

THE 99/D3 MACHINE CAN BE EQUIPPED WITH A PRESSURIZATION CIRCUIT BY NITROGEN,
 ON THE 99/D3-SODA MACHINE THIS OPTION CANNOT BE APPLIED
