FILLING AND EMPTYING POWDER EXTINGUISHERS · ON-SITE SERVICE

TOTEM-M model

Compact dimensions, **great performance** — specially designed for the mobile workshop.

ADVANTAGES

The "TOTEM-M" has an innovative design, conceived bearing in mind the operational tasks commonly encountered during maintenance of dry powder extinguishers. Special attention has been paid to dimensions and weights to ease transport, mainly for on-site service. By means of the (optional) slides for vehicle installation, the unit can also be installed on-board a mobile workshop. Thanks to the standard and optional accessories, the various operational steps are performed in the safest and most efficient way. Made of high quality materials, easy-to-use, low maintenance, with an optimum quality-price ratio.

APPLICATIONS

The TOTEM series units, designed for dry powder transfer, are suitable for **filling and emptying powder fire extinguishers**, both portable and wheeled types. The TOTEM range covers every maintenance need: from the portable "TOTEM-M" and the basic "TOTEM-E" to the versatile "TOTEM-TS", up to the multi-functional "TOTEM-GALAXY / GALAXY II". Industrial, airport and military solutions too: the pneumatic-exhauster "TOTEM-MP" and "TOTEM-TP".

MAIN COMPONENTS

- Single-phase electric suction exhauster for the "M" version (pneumatic for the "MP")
- Painted steel charge separator:
  - high-efficiency micro-porous "Long-Life" filter
  - filter cleaning by counter-blowing
- Powder down-flow valve with control pilot light
- Framework with double (working/transport) position and wheels
- Handgrips in the upper framework
- Charge separator height-adjustment device
